PM 1396
Our Ref: PM-89-2

Dear Jim:

Enclosed are two copies of a patent application which has been revised taking into consideration the comments and suggestions of Dr. J. Seeman forwarded to us on March 14, 1991.

We have included a definition of ISOPAR-K used in some of the Examples as well as a list of suitable organic solvents.

We believe this application is in condition for execution and filing.

Very truly yours,

DEPAOLI & O'BRIEN, P.C.
